

Pre-approved High Voltage Contractors – City of Oak Ridge Electric Department
January 2005

In addition to holding a Tennessee Electrical Contractor's License valid for high voltage work, these Contractors are believed to have:

- The demonstrated ability, capacity, and skill to perform high voltage work.
- The demonstrated ability to perform timely service, perform high quality construction, and perform efficiently.
- People in charge of the company and performing the work of an acceptable character, of high integrity, who exhibit good judgment, and who have an acceptable reputation performing high voltage electrical services.
- Delivered quality performance on previous contracts with other utilities and on any previous work for the City of Oak Ridge Electric Department.
- Demonstrate sufficient financial resources and ability to perform the contract, provide the service, and pay sub-contractors in a timely fashion.
- A commitment to a safe, injury free workplace as demonstrated by an aggressive, active training and safety program and acceptable loss and injury rates.
