

Enhanced Growth Credit Program

Growing your business?
TVA's Enhanced Growth
Credit Program is here
to help – today and for
years to come.

The Enhanced Growth Credit Program is available as an economic development incentive providing credits on power bills to qualifying companies that locate or expand in the Tennessee Valley. In today's competitive climate, the program offers significant economic advantages.

Requirements

A business qualifies if it belongs to one of the following SIC codes or meets the All Electric criteria and meets minimum kilowatt demand requirements:

SIC codes

- Mining: 10 through 14
- Manufacturing: 20 through 39
- Bulk Transportation: 40, 42, 44, and 45

All Electric

- All electric HVAC system, and
- At least 50% of the interior floor space must be heated or cooled by the HVAC, and
- At least 50% of the electric load is for interior lighting, cooking, and the HVAC system

Minimum Added Load Requirements

New or expanding firm power demand

- SIC qualifiers 100 kW
- All Electric qualifiers 250 kW

Credit Options

Customers may choose one of the following options for receiving credits:

Eight-Year Declining Option

The monthly credit for the first 12-consecutive-month period will be \$6 per kW. The credit is reduced by \$0.75 per 12-month period for seven additional years and then ends. The eight-year period begins with the first month in which the customer meets the minimum added load requirements. Thereafter, credit is applied any month in which power usage reaches the minimum added kW requirements.

Four-Year Flat Option

The monthly credit for a four year period, beginning with the date the first credit is received, is equal to \$6 per kW. The credit is applied in any month in which power usage reaches the minimum added kW requirements.

Distributors may choose to offer only one or both of the above credit options.
