

**Date:** January 14th, 2014  
**REVISION #:** 0  
**File Name:** T:Green Power/Green Power Customers & Applications/2 Typical Project Progression

## TYPICAL PROJECT PROGRESSION

STEP1: The customer contacts the City of Oak Ridge Electric Department (CORED) requesting information on steps and procedures to participate in the program. Information can also be found on the web at:  
***<http://ored.oakridgetn.gov/apply-for/grid-tied-generation/>***

STEP 2: CORED furnishes a Capacity Reservation Request (CRR) form and a pre-application questionnaire the customer will need to complete before submitting a formal application.

STEP 3: Customer returns the CRR and the pre-application questionnaire to:

***100 Woodbury Lane,  
Oak Ridge, TN 37831  
ATTN: Ardo Ba  
Engineering Department***

STEP 4: Customer can have an informal meeting with engineering at CORED headquarters to review submittals, once he/she has been randomly selected by TVA.

STEP 5: Customer makes a formal application which entails submitting the following:

- Interconnection Application.
- Interconnection Agreement.
- Participation Agreement.

Customer pays applications fees plus a deposit if required.

STEP 6: The application fees cover the following:

- One commissioning test.
- Review of phase I compliance and submittal.
- Review of checklist, and plans for completeness.

CORED will review the application for sufficiency and completeness. Within 10 business days of receipt of application, CORED will notify the customer that it has received all documents required or indicate how the application is deficient. After two incomplete and/or unapproved submittals, the submittals are deemed "rejected" and a new application fee will be required.
